

## **8 form. Unit2. School is not only learning.**

**Some students from Hill Ridge school from Britain have arrived to the Republic of Belarus. They visit your school in Beryoza District and want to know what your school is famous for.**

The secondary school No. 3 is situated in the center of Beryoza. It was founded in 1989. In 2014, the 25th anniversary of the school was celebrated.

The school is well-known for its traditions and achievements not only in our region. Over the years, we have been holding the leading positions among the town schools for its high results in the subjects Olympiads and in various creative competitions. Paying great attention to the students' health, their healthy lifestyle, the school constantly gets prizes in the regional sports days, as well as different sports competitions. Our teachers are in search of new creative ideas, introducing the most successful of them in the educational process:

- since 2000 the school newspaper "ASU" ("The Newspaper of Students") has been published;
- since 2003 the "KVN" team has been the visiting card of the school;
- since 2005 the basketball team has been participating in the International Basketball League, annually hosting teams from other countries;
- since 2005 the school TV studio "School Steps" has been working.

The teachers of our school take part in creative competitions of professional skills on different levels. The teacher of Physics and IT Kovalevich K.V. became the winner of the regional competition of professional skills "Young Teacher of Brest Region – 2015". And in 2017 he became the finalist of the nationwide contest "Teacher of the Year of the Republic of Belarus".

Students have the opportunity to join different after-school clubs, get additional educational support, participate in KVN movement, work as volunteers, take part in interesting school activities.

The lovers of traditional culture will find folk rituals, customs and celebrations, folk costumes, crafts, and legends in our school Ethnographic Museum "Heritage". It was opened in 1991. The museum area is 27 sq. m. It contains a rich and varied ethnographic material that forms the main Fund of the Museum and the existing exhibitions.

**Students from Britain want to make details about your school more precise. Name what was happened on these dates.**

1989, 1991, 2000, 2003, 2005, 2015, 2017

**Students from Hill Ridge School ask you some questions. Read them and answer.**

- 1- Where is your school situated?
- 2- How old is your school?
- 3- What traditions are there in your school?
- 4- Are the teachers of your school creative, professional and experienced?
